

My Label – Installationsanleitung 5 Pocket Jeans

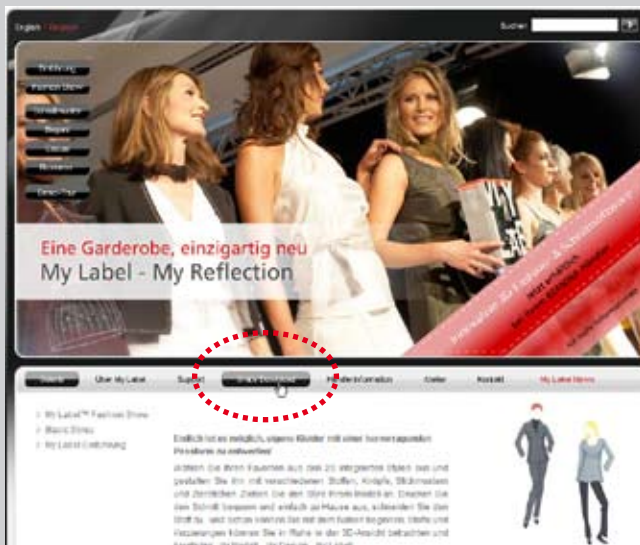

Follow the instructions below in order to incorporate the My Label style package in the My Label software:
Install BERNINA My Label and Adobe Reader on your computer, if you have not already done so. You'll find Adobe Reader at the following link – download and install the program on your computer: <http://get.adobe.com/de/reader/otherversions/> . Adobe Reader is essential for reading the My Label sewing instructions.
Next, download the JeansEN.pdz or JeansGER.pdz file from the www.berninamylabel.com or the www.bernina.com Website.

Important!

If the My Label software is installed in English, the English pdz file must be selected.
If the My Label software is installed in German, the German pdz file must be selected.

Step-by-step instructions:

1. Open the www.berninamylabel.com Website.
2. Click on Free Download.

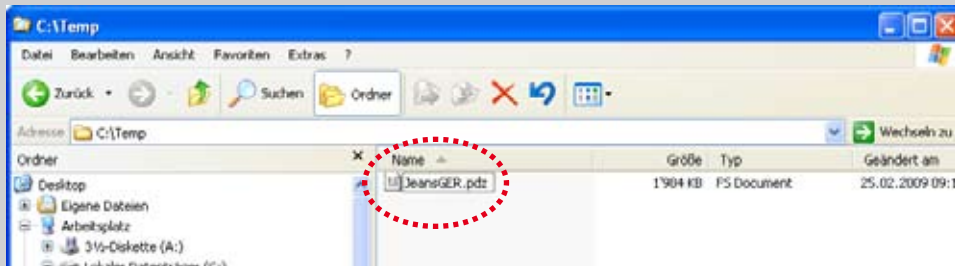

3. Click on My Label Collection 1.

My Label™

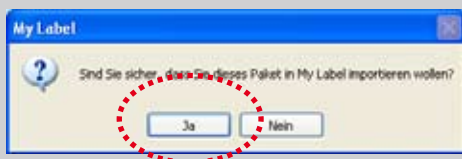

4. Right-click on the desired file JeansEN.pdz or JeansGER.pdz. to save the file. The place to save to is freely selectable in Explorer. Close your Internet browser and all other open programs except for Explorer.
5. Insert your My Label data stick in the USB port and open My Label.
6. Select the saved .pdz file in Explorer.

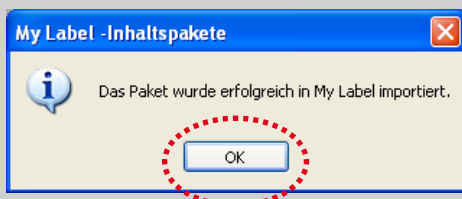

7. Double-click on the file. Confirm with 'OK'.

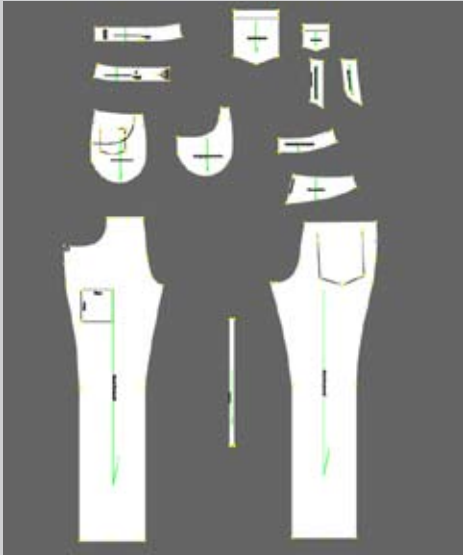

Confirm with 'Ja'.

Confirm with 'OK'.

8. You'll find the 5-Pocket Jeans in the My Label Program under the category 'Pants' in 'Styles'.

9. The following languages are available in the 'Instructions' index: English, German, Dutch, French, Spanish, Italian and Russian. Tips and Tricks are available in both German and English.
